Service Letter

Letter No. 024

Issue Date: Jan. 31, 2007

ANNOUNCEMENT OF NEW REVISION SERVICE POLICY FOR ALL KELLY AEROSPACE POWER SYSTEMS TECHNICAL MANUALS

INTRODUCTION:

Over the years, Kelly Aerospace Power Systems (KAPS), (formerly Electrosystems, JanAero, Electrodelta, Rayjay, and Consolidated Fuel Systems) has obtained and supported many older legacy lines of products purchased from various companies. These include, but not limited to, alternators, starters, heaters, turbochargers, turbocharger valves and controllers, and fuel systems. Many of these components have had technical manuals and instructions written long ago and for mature products. Most of the original manuals have been compiled and reissued under the KAPS name but very little has changed or been added. As with many companies, a yearly revision subscription service has been offered for purchase, however due to the many legacy products, few or no revisions have ever been issued making the revision service a questionable value to our customers. The new KAPS service is based on a "pay per revision" process in which the price will vary with the size of the revision.

Effective immediately, all Kelly Aerospace Power Systems technical manuals which include Service, Maintenance, Overhaul, and Parts catalogs **will no longer offer a yearly subscription service**. *The new revision policy procedure is described below.*

EFFECTIVITY:

All Kelly Aerospace Power Systems technical manuals previously or newly issued. These include but are not limited to the OE-A2 Alternator and Starter manual, the 200201-0000 Fuel Pump manual, the 400600-0000 Turbocharger manual, 400999-0000 Turbocharger Valves and Controls manual, 24E25-1 Aircraft Heater manual and the 94E47 Aircraft Heater manual.

PROCEDURE:

Upon the development and release of a revision to any technical manual, KAPS will issue a Service Information Letter (SIL) against the affected manual announcing the revision. The SIL will indicate the reason for revision, ordering details, price and availability. For each subsequent revision of a given manual, the SIL will be reissued keeping a note of the previous revision history. The SIL will be posted on our website, www.kellyaerospace.com. If e-mail is available, it will also be sent to registered owners of the affected manuals. *Postal mailing will not be made for the SIL unless a written special request is made.* The price of each revision does not include shipping and handling.
